STAT

SUBJECT: Draft Charter for New Subcommittee

1. SECOM members agreed at their 14 November 1984 meeting to task the Physical Security Working Group (PSWG) to draft a charter for its reconstitution as the SECOM Facility Protection Subcommittee with a broader mission. The new mission should continue the present one of formulating security policy and procedures for the construction and safeguarding of SCI facilities and add responsibility for compiling data on and drafting security policy and procedures governing physical access to intelligence facilities and protection of personnel in them. The draft charter should include responsibility for developing continuing awareness of security threats and of the effectiveness of security countermeasures against those threats.

2. A draft charter is requested by 18 January 1985. Please call me [Redacted] if you have any questions.
